

# Tactical N

## A NITROGEN EFFICIENCY FERTILIZER DESIGNED FOR AGRICULTURE

### GUARANTEED ANALYSIS

Total Nitrogen (N)..... 28%  
28% Urea Nitrogen\*

**Derived from:** Triazone, Methylene Urea, Urea.

\*14.3% Slowly available nitrogen from Triazone and Methylene urea.

### WARNING

#### READ ENTIRE LABEL BEFORE USE | KEEP OUT OF REACH OF CHILDREN

Causes eye irritation. May cause respiratory irritation.

Avoid or prolonged or repeated contact with eyes, skin, and clothing. Chemical goggles should be worn; to protect skin, wear appropriate protective equipment, such as rubber or plastic aprons, rubber gloves, and boots. Keep container closed. Wash thoroughly after handling. May cause gastrointestinal distress if swallowed.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

### Agricultural Use Only

#### Product Information:

Tactical N contains 2.8 pounds of nitrogen per gallon from slowly available water soluble triazone & methylene ureas in solution with urea.

#### Directions for use:

Shake well and/or agitate before each use. Do not apply when plants are under excessive heat or moisture stress. Do not spray to the point of runoff. Allow 4 hours after application before sprinkler irrigation and/or rain events to avoid washing product off. Tactical N is compatible with most agricultural chemicals and nutrients, but always establish compatibility using a standard jar test prior to mixing. Consult your Donny's Specialty Fertilizer representative prior to application.

#### Application Rates:

Foliar: 2 quarts-4 gallons/acre

Soil: 1-10 gallons/acre

Tactical N may be applied as a foliar fertilizer on a wide range of ornamental, greenhouse, or other agricultural crops. When using spray volumes of 50 gallons per acre or greater, use the higher labeled spray rates. Tactical N may be soil applied as a band, side-dress or injected through the irrigation system, sprinkler, drip or center pivot. Timing of treatments should be based on crop nutrient demand, prevailing environmental conditions, plant tissue analysis data or other information that indicates a need for fast-acting, supplemental nitrogen. Application rates should be determined according to recommendations in your approved nutrient management plan.

**Conditions of sale:** Donny's Specialty Fertilizer warrants that Tactical N conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on the label when used in accordance with directions under normal use conditions. Crop injury, product use ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of the seller. All such risk shall be assumed by the buyer/end user.

Density: 10.6 lbs per gallon @ 68°F.
