

# Tactical P

## A PHOSPHATE FERTILIZER SOLUTION DESIGNED FOR AGRICULTURE

### GUARANTEED ANALYSIS

Total Nitrogen (N)..... 9%  
 7.6% Ammoniacal Nitrogen  
 1.4% Urea Nitrogen  
 Available Phosphate (P2O5):..... 20%  
 Soluble Potash (K2O).....2%

**Derived From:** Ammonium Hydroxide, Urea, Phosphoric Acid, Potassium Acetate, Potassium Sulfate

### WARNING

**READ ENTIRE LABEL BEFORE USE | KEEP OUT OF REACH OF CHILDREN**

Causes eye irritation. May cause respiratory irritation.

Avoid or prolonged or repeated contact with eyes, skin, and clothing. Chemical goggles should be worn; to protect skin, wear appropriate protective equipment, such as rubber or plastic aprons, rubber gloves, and boots. Keep container closed. Wash thoroughly after handling. May cause gastrointestinal distress if swallowed.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfc.org/metals.html>

### Agricultural Use Only

#### Product Information:

Tactical P is an excellent soluble nutrient source with more than 2.13 lbs of available phosphate, 0.95 lbs nitrogen, and 0.21 lbs of potash.

#### Directions For Use:

Shake well and/or agitate before each use. Dilute with water before the addition of other products. Do not foliar apply when ambient temperatures are expected to exceed 85°F before application completely dries on foliage, or when the plant is under moisture stress. Do not spray to the point of runoff. Allow 4 hours after application before sprinkler irrigation to avoid washing product off. Tactical P is compatible with most agricultural chemicals and nutrients, but always establish compatibility using a standard jar test prior to mixing. Consult your Donny's Specialty Fertilizer representative prior to application.

#### Application Rates:

Foliar: 2 quarts-4 gallons/acre

Soil: 1-10 gallons/acre

Tactical P may be applied as a foliar fertilizer on a wide range of ornamental, greenhouse, or other agricultural crops. When using spray volumes of 50 gallons per acre or greater, use the higher labeled spray rates. Tactical P may be soil applied by drip, sprinkler or flood irrigation and may be blended with other fertilizers. Optimum results are obtained when Strategic P is banded, applied near the seed at planting, or sprayed on plants at an early leaf stage. Application rates should be determined according to recommendations in your approved nutrient management plan. Consult with your Donny's Specialty Fertilizer representative prior to application.

**Conditions of sale:** Donny's Specialty Fertilizer warrants that Tactical P conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on the label when used in accordance with directions under normal use conditions. Crop injury, product use ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of the seller. All such risk shall be assumed by the buyer/end user.

**Density: 10.66 lbs per gallon @ 68°F.**

**Net Contents:**

**○ 2.5 gallons (9.46 liter)**

**○ 275 gallons (1040.98 liter)**
